Dynamic and detail-oriented Full Stack Developer with over 1 years of experience specialising in Angular, ASP.NET, and SQL. Proven ability to design, develop, and implement web applications that meet the highest standards for performance, scalability, and user experience. Adept at collaborating with cross-functional teams to deliver robust and innovative solutions on time. Strong problem-solving skills, a passion for continuous learning, and a commitment to staying current with the latest industry trends and best practices.

## Experience

Sept 2023 – Jan 2024

**Full Stack Developer (trazinee) | CS Infotech| Chandigarh**

I received comprehensive training in Full Stack Development. This training provided invaluable insights into industry standards, best practices, and the software development lifecycle. I honed my skills in, Angular, SQL, React, Node.js, MongoDB, ASP.NET through a curriculum that covered most practical applications. By working on real-world projects and scenarios, I enhanced my technical proficiency and improved my ability to collaborate with team members, manage project timelines, and deliver high-quality software solutions. This experience equipped me with a solid foundation in both frontend and backend development, preparing me to tackle complex development challenges and contribute meaningfully to any software development team.

## Skills

**Frontend Development:** React, Angular, HTML5, CSS3, JavaScript, TypeScript

**Backend Development:** NodeJS, ExpressJS, RESTful APIs

**Database Management:** SQL Server Mongo DB,

**Version Control:** Git, GitHub

**Development Tools:** Visual Studio, VS Code

Other: Responsive Design, Unit Testing

## Projects

Tesla Clone • Password Generator Web Extension • Weather App • Portfolio
